EDUCATION

JS University, Shikohabad — Shikohabad *, India*

Bachelor of Computer Application (BCA) — 2023 – 2026

SKILLS

Technical: SQL, Python, Statistics, Data Visualization

Tools: Power BI, Excel, Jupyter Notebook, Git/Github, PostgreSQL

PROJECTS

HR Attrition Analysis Dashboard (Excel) / GitHub Link

Dec 2025 – Jan 2026

- Analyzed AI and ML Job market dynamics by cleaning and processing employment datasets to track high - demand tech stacks and rolls.
- Utilized Power BI and Excel (Power Query, DAX) to build dynamic data models, custom filters, and visual KPIs.
- Delivered Comprehensive insights on salary benchmarks and skill requirements to identify top – paying roles and hiring trends.

AI & ML Jobs Dashboard (Power BI) — Mar 2026 – Apr 2026

- Analyzed modern employment trends for AI and Machine Learning roles to uncover salary distribution patterns, experience-level requirements, and top-demanded tech stacks.
- Cleaned and structured raw job market datasets using **Power BI (Power Query)**, writing dynamic **DAX measures** for custom metric calculations.
- Developed an interactive Power BI dashboard with cross-filtering charts and regional hiring insights to assist job seekers and analysts in tracking market demands.

Smart & Inventory Billing System (Python / Streamlit / PostgreSQL) — Aug 2026 – Aug 2026

- Developed an automated billing and inventory tracking system to manage product stock levels, sales records, and seamless invoice generation.
- Designed structured database workflows where every bill generation automatically updates and decrements corresponding item stocks in real-time.
- Optimized inventory operations and reduced manual logging errors, providing clear reports on product availability and sales performance.

ACHIEVEMENTS

- **Tech Content Creator (Codilogy):** Founded and managed an educational tech community, creating tutorials and visual guides on Python, SQL, and programming concepts.
- **Project Showcase & GitHub:** Published 3 end-to-end data analytics and automation projects on GitHub, demonstrating practical expertise in SQL, Power BI, Python, and Advanced Excel.
